Amina's Stories (for workers and women). This video was developed to introduce women from Somalia, Ethiopia and Eritrea to the services of The Royal Women's Hospital and some of the other women's health services in Melbourne, by following several women's journey's through the hospital.

Female Genital Mutilation (FGM) - Issues for Clinical Practice (for health professionals). This video offers a practical guide to deinfibulation procedures, as well as an insight into the assessment and obstetric management of affected women. It was developed using the expertise of clinicians in consultation at The Royal Women's Hospital in Melbourne and draws on existing national and international resources on the topic.
