

LETTER TO MEDICAL PRACTITIONER FOR TREATING CONTACTS

Date:

Dear Doctor,

Re:

This client has recently been in sexual contact with a partner who has tested positive for Chlamydia. It is recommended that this client be actively treated for Chlamydia regardless of the result of any test undertaken. We have advised this client to consult with you for the management of this condition.

Please contact me on..... should you require any further details.

Thank you.

Yours sincerely,

Women's Health Nurse Practitioner
