

in time

Fertility preservation for young cancer patients

Preserving the fertility of children and young people with cancer.

The Royal Women's Hospital in Melbourne coordinates a national program that preserves fertility for children and young people with cancer.

In Time covers the cost of transporting tissue, processing, and storage at the Women's.

Hope for the future

When the time is right, tissue that is stored at the Women's can be transported back to your local hospital, or treatment can be arranged at the Women's.

More Information

For more information about In Time, visit the Women's website: thewomens.org.au/in-time
