

Position Description

Position title:	Clinical Support Nurse Midwife – Women's Emergency Care
Department:	Clinical Education Program
Classification:	Registered Nurse Midwife Grade 3A (RN29)
Agreement:	Nurses and Midwives (Victorian Public Health Sector) (Single Interest Employers) Enterprise Agreement 2024 – 2028)
Reporting to:	Lead Educator, Women's Health

About us

Located in Melbourne on the traditional lands of the Wurundjeri people of the Kulin Nation, the Royal Women's Hospital is Australia's first and leading specialist hospital for women and newborns. We offer expertise in maternity services, neonatal care, gynaecology, assisted reproduction, women's health and cancer services. We advocate for women's health in areas that have long been overlooked or stigmatised, including abortion, endometriosis, family violence, female genital mutilation, menopause, women's mental health, sexual assault and substance use in pregnancy.

Our vision, values and declaration

The Women's vision, values and declaration reflect our promise to our patients and consumers, and articulate our culture and commitment to our community and each other.

Our vision is '**Creating healthier futures for women and babies**'. Our values are:

Courage

Passion

Discovery

Respect

The Women's declaration reflects the principles and philosophies fundamental to our hospital, our people and our culture.

- **We are committed to the social model of health**
- **We care for women from all walks of life**
- **We recognise that sex and gender affect health and healthcare**
- **We are a voice for women's health**
- **We seek to achieve health equity**

Our commitment to inclusion

Women's is committed to creating and maintaining a diverse and inclusive environment which enhances staff and consumer wellbeing and nurtures a sense of belonging. We strongly encourage anyone identifying as Aboriginal and/or Torres Strait Islander to join us. We offer a range of programs and services to support First Nations employees. We invite people with disability to work with us, and we welcome anyone who identifies linguistically, culturally and/or gender diverse, people from the LGBTQIA+ community and people of any age.

Find the exceptional in your everyday.

The Women's, where you belong.

About the department/unit

The Clinical Education Program supports the hospital to achieve its strategic directions by the provision of frameworks for the professional development of health professionals. The Clinical Education Program supports the growth and maintenance of the future nursing and midwifery workforce through coordination of the nursing and midwifery learner, graduate and specialty post-graduate programs. The Clinical Education Program further collaborates with other health professional groups to promote best practice clinical learning environments (BPCLE) across the organization. The Clinical Education Program promotes pathways for engagement and retention of Aboriginal and Torres Strait Islander Health Professional Learners and works with services to promote culturally safe environments for learning.

The Clinical Education Program promotes and supports contemporary professional practice within a collaborative framework, increasingly engaging a variety of self-directed and multi-media activities, which incorporate adult learning principles and meet organisational needs to have workforce of safe, reflective, competent health professionals. The program aims to work in collaboration with managers, team leaders, and other key stakeholders to increase participation in education and learning translation of research into action and reflective practice.

The Clinical Education Program plays a key role in ensuring that health professionals are competent / credentialed to perform their specified duties. The Program also plays a pivotal role in collecting, recording and analysing data from education and learning attendance and completion of records via CHRIS 21 in line with the Training and Development Procedure. As a team of professionals, the Clinical Education team are early adopters, self-starters, innovators and change leaders. The team engages with precinct, network, and rural and regional partners and Education Providers to lead professional practice and build workforce capability and capacity across the sector.

The Clinical Education Program promotes the Best Practice Clinical Learning Environments (BPCLE) framework.

The Best Practice Clinical Learning Environment (BPCLE) Framework is based on four principles:

1. Patient care is both an integral component and the ultimate measure of quality clinical education.
2. Learning in clinical environments is an essential component of training health professionals.
3. Registration and/or accreditation standards set down by professional bodies are the appropriate mechanism for ensuring that clinical education arrangements meet minimum standards for educational or training outcomes.
4. Many different models of clinical education and training exist and successfully produce clinicians of required competency and standards.

The BPCLE Framework is comprised of six elements that are the essential underpinnings for a quality clinical learning environment, namely:

1. An organisational culture that values learning
2. Best practice clinical practice
3. A positive learning environment
4. A supportive health service-training provider relationship
5. Effective communication processes
6. Appropriate resources and facilities

Department/Unit Specific Overview – Women’s Emergency Care (WEC)

The Women’s Emergency Care (WEC) department provides emergency assessment and management of acute presentations to the Women’s. Our focus is on the specialist health needs of women and includes acute obstetrics, gynaecology, and women’s cancer care. We also provide assessment of neonates.

Women’s Emergency Care provides direct primary clinical care for women with acute obstetric and gynaecological problems and newborns with a range of neonatal conditions. We are a patient-centered department with our focus on the clinical wellbeing of our patients whilst recognizing and supporting the other aspects of care, e.g. psychological, psychosocial, social and socioeconomic. This requires extensive liaison and co-ordination with varying departments within the hospital such as social work, Centre against sexual assault (CASA) and mental health.

The Women’s Emergency Care Service provides the following services:

- Acute presentations of a general nature including anaphylaxis, pneumonia, chest pain abdominal pain or asthma
- Mental health
- Domestic violence
- Acute presentations of Premature labour and birth /SROM / Trauma
- Immediate assessment and intervention for women with conditions relating specifically to Maternity and Women's Health. For example, assessment of bleeding in early pregnancy, pelvic pain, breast conditions, emergency contraception, and abnormal vaginal bleeding
- Gynaecological care of women across the spectrum of age
- Sexual Assault support services to CASA providing clinical support (medical and / or nursing / midwifery)

We manage over 28,000 presentations annually and provide a range of assessment services within the department, including emergency care, maternity assessment centre and early pregnancy assessment service.

The department is staffed by a mix of Registered Midwives and Nurses, Emergency and O&G specialists and Medical officers. The collaboration of these groups is key to the delivery of emergency care.

Position purpose

The Clinical Support Midwife /Nurse (CSMN) - WEC will work to create an engaged and reflective learning organisation.

The Clinical Support Midwife/Nurse is a direct clinical support role and is accountable to the Lead Educator Women’s Health for efficient, effective and well-planned delivery of clinical support to WEC at the Women’s thereby contributing to the strategic plan of the organization by:

Find the exceptional in your everyday.

The Women’s, where you belong.

- Facilitating clinical learning, guiding, supporting and evaluating all midwives/nurses in the WEC team including but not limited to new graduates and new staff
- Clinical support and delivery insitu - learning support and development of our future workforce
- Supporting the competency requirements of our nursing and midwifery workforce as outlined in the credentialing scope of clinical practice nurses and midwives guideline
