

POSITION DESCRIPTION

Title	Lead Enterprise Architect
Super Stream	Cyber Resilience & Architecture
Department	Digital Innovation
Classification	AO8
Agreement	Health and Allied Services, Managers and Administrative Workers Single Enterprise Agreement 2021-2025
Reports to	Manager Resilience & Architecture
Accountable to	Director, Cyber Resilience & Architecture

Organisational Overview

The Royal Women's Hospital (**the Women's**), The Royal Melbourne Hospital (**RMH**), and Peter MacCallum Cancer Centre (**Peter Mac**) are leading Victorian public health services located within the Parkville precinct.

The **Women's** is Australia's foremost specialist hospital for women and newborns, delivering primary and tertiary care through a workforce of more than **2,500 staff**, and is internationally recognised for excellence in care, teaching, and research.

The **RMH** is one of Victoria's largest tertiary health services, providing world-class medical, surgical, and mental health programs. Supported by over **12,000 staff**, RMH is a designated trauma centre and leader in neurosciences, nephrology, oncology, cardiology, and virtual health.

The **Peter Mac** is a global leader in cancer research, education, and treatment, with more than **3,900 staff**, including over **700 researchers**, driving innovation in cancer prevention, diagnosis, and care.

Together, these organisations deliver integrated, research-driven, and patient-centred healthcare to local, state, and international communities.

Department Overview – Digital Innovation Service

The Digital Innovation Service (DI), hosted by the Women's, provides a unified ICT capability across the Parkville Local Health Service Network. DI supports the Women's, RMH, and Peter Mac by delivering shared digital infrastructure, systems, and innovation services critical to their clinical and operational performance.

Between July 2024 and June 2025, DI managed over 139,000 support tickets, supporting more than 19,000 staff across the health services, highlighting its essential role in enabling safe, reliable, and connected care across the precinct.

In addition, DI provides services under Service Level Agreements to the Parkville Youth Mental Health and Wellbeing Service (PYMHWS) and limited legacy support to Northern Health and Western Health.

Position Purpose

The Lead, Enterprise Architect is responsible for shaping and governing the organisation's enterprise architecture to ensure digital systems are secure, resilient, integrated and aligned to strategic priorities. The role provides expert architectural leadership across business, application, data and technology domains, ensuring solution designs support long-term organisational goals, cyber resilience principles and efficient technology investment.

Reporting to the Manager and operating within the Cyber Resilience & Architecture stream, this position leads the development of enterprise architecture standards, patterns, and roadmaps, ensuring their consistent application across digital programs and technology initiatives.

The role promotes secure-by-design practices, provides architectural oversight for major projects, and guides decisions that optimise system performance, security, interoperability, and lifecycle management.

The Lead works collaboratively with the Manager, technology leaders, solution designers, and business stakeholders to uplift architectural maturity, drive strategic alignment, and maintain a digital ecosystem that is secure, scalable, and future-ready.

Key Responsibilities

Cyber Resilience & Architecture

- Lead the development, maintenance and governance of enterprise architecture frameworks, principles and patterns.
- Ensure resilience, security and interoperability are embedded into all architectural decisions and solution designs.
- Provide expert guidance on architecture risk assessments, technology standards and secure-by-design methodologies.
- Oversee the alignment of solution architectures with enterprise architecture roadmaps, cyber resilience strategies and organisational priorities.
- Review and approve architectural deliverables for major projects, ensuring optimal outcomes for performance, security and lifecycle continuity.
- Partner with cybersecurity teams to integrate robust controls, threat mitigation strategies and resilience planning into architectural practices.

Strategic Leadership

- Develop and maintain enterprise architecture roadmaps that support digital transformation and long-term organisational strategy.
- Provide high-level direction on future technology platforms, integration patterns, cloud adoption and emerging technology opportunities.
- Lead the uplift of architectural capability and maturity across the organisation.
- Influence decision-making at senior levels by presenting clear, strategic advice on architecture design, risks and technology direction.
- Champion innovation and the adoption of modern architecture approaches, including modular design, cloud-native services and automation.

Operational Performance

- Ensure efficient delivery of architecture services and timely support for projects, proposals and business initiatives.
- Maintain a comprehensive view of the enterprise technology landscape, identifying gaps, risks and optimisation opportunities.
- Support architecture governance forums, ensuring consistent adherence to standards and policies.
- Monitor architectural performance, technical debt and system dependencies, recommending improvements where required.
- Provide expert support during major incidents, complex design issues and critical operational challenges.

People and Culture

- Provide day-to-day guidance and support to triage analysts and frontline support staff.
- Assist with onboarding of new staff by ensuring consistency in triage practices, system use, and customer service expectations.
- Contribute to capability development through coaching, knowledge sharing, and uplift of analysis skills across the team.
- Model professional, customer-focused behaviours and support a culture of teamwork, responsiveness, and continuous improvement.
- Support staff wellbeing and contribute to change adoption within the team by reinforcing clear communication and expectations.

- Uphold organisational values and support a safe, inclusive, and respectful workplace.
- Encourage behaviours aligned with organisational values and operational excellence.
- Provide digital services support for all hospital sites supported by the Digital Innovation.
- Participate in daily duty roster support across all supported health service sites as required and scheduled.
- Be available for after-hours on-call support duties across all supported hospital sites as required and rostered.
- Participate in off-site support roster as scheduled.
- Contribute to coordinated teamwork and information sharing.
- Request planned leave promptly and maintain excess leave balances in line with hospital guidelines.
- Submit timesheets and leave requests in accordance with maximum leave balances and attendance requirements.
- Engage in performance management, professional training, and development opportunities as required.
- Complete all mandatory hospital training requirements within specified timeframes.
- Consistently demonstrate hospital values in all interactions and activities.

Stakeholder and Relationship Management

- Build strong partnerships with internal stakeholders including technology leaders, project managers, business units and executive sponsors.
- Communicate complex architectural concepts in clear, accessible language for non-technical audiences.
- Represent enterprise architecture in strategic planning activities, governance forums and project steering groups.
- Engage with external vendors, consultants and industry bodies to ensure alignment with best practice and market developments.

Financial and Risk Management

- Support planning and prioritisation of technology investments, ensuring alignment with architectural principles and value-for-money outcomes.
- Ensure architecture risks are identified, assessed and managed appropriately across the digital environment.
- Oversee alignment with audit, compliance and security obligations related to technology architecture.
- Provide input into business cases, cost modelling and lifecycle planning to optimise technology investment decisions.

Key Relationships

Internal:	External:
Chief Digital Information Officer	Victorian Department of Health
Partner organisation Board, Chief Executives and Executives	Technology vendors and service providers
Directors and Managers within Digital Innovation	Partner health services and universities
Clinical, Research, and Corporate Leaders	Research collaborators and innovation partners

Organisational Relationships

- Number of employees that are consumers of the DI service: 19,000+

Performance and Accountability

Performance objectives are set annually with the CDIO, focusing on:

- Delivery of strategic digital outcomes
- Service reliability and cybersecurity
- Financial sustainability
- Workforce capability
- Innovation and precinct collaboration

Key Selection Criteria

- Bachelor's degree (or higher) in Business, Healthcare Administration, Information Technology, Digital Health, or a related discipline, or equivalent experience.
- Experience in process improvement, operations, or digital transformation within healthcare or similarly regulated environments.
- Working knowledge of RPA, AI, and intelligent automation, with the ability to evaluate tools and platforms.
- Understanding of healthcare operations, patient workflows, and regulatory requirements.
- Leadership in ICT or digital health, including leading multidisciplinary teams and delivering transformation programs.
- Stakeholder engagement and influence across internal and external groups.
- Strategic thinking in complex service environments.

Inherent Requirements

There are a number of critical work demands (inherent requirements) that are generic across all positions. The generic inherent requirements for this position are detailed below. These may be added to with more specific inherent requirements, if required, by your manager and Occupational Health and Safety.

Physical Demands	Frequency
Shift work – rotation of shifts – day, afternoon and night	Occasional
Sitting – remaining in a seated position to complete tasks	Frequent
Standing- remaining standing without moving about to perform tasks	Occasional
Walking – floor type even, vinyl, carpet,	Occasional
Lean forward / forward flexion from waist to complete tasks	Rare
Trunk twisting – turning from the waist to complete tasks	Rare
Kneeling – remaining in a kneeling position to complete tasks	Rare
Squatting / crouching – adopting these postures to complete tasks	Rare
Leg / foot movement to operate equipment	Not Applicable
Climbing stairs / ladders – ascending and descending stairs, ladders, steps	Rare
Lifting / carrying – light lifting and carrying less than 5 kilos	Frequent
– Moderate lifting and carrying 5–10 kilos	Rare
– Heavy lifting and carrying – 10–20 kilos.	Not Applicable
Push/Pull of equipment/furniture – light push/pull forces less than 10 kg	Frequent
– moderate push / pull forces 10–20 kg	Rare
– heavy push / pull forces over 20 kg	Not Applicable
Reaching – arm fully extended forward or raised above shoulder	Not Applicable
Head / Neck Postures – holding head in a position other than neutral (facing forward)	Not Applicable
Sequential repetitive actions in short period of time	
– Repetitive flexion and extension of hands wrists and arms	Prolonged/Constant
– Gripping, holding, twisting, clasping with fingers / hands	Prolonged/Constant
Driving – operating any motor-powered vehicle with a valid Victorian driver's license.	Rare
Sensory demands	Frequency
Sight – use of sight is integral to most tasks completed each shift	Prolonged/Constant
Hearing – use of hearing is an integral part of work performance	Prolonged/Constant
Touch – use of touch is integral to most tasks completed each shift.	Prolonged/Constant
Psychosocial demands	Frequency
Observation skills – assessing / reviewing patients in /outpatients	Prolonged/Constant
Problem Solving issues associated with clinical and non-clinical care	Prolonged/Constant
Attention to Detail	Prolonged/Constant
Working with distressed people and families	Not Applicable
Dealing with aggressive and uncooperative people	Rare
Dealing with unpredictable behaviour	Rare
Exposure to distressing situations	Rare

Definitions used to quantify frequency of tasks / demands as above

Prolonged / Constant	70–100 % of time in the position
Frequent	31–69 % of time in the position
Occasional	16–30% of time in the position
Rare	0–15% of time in the position
Not Applicable	

Employee Responsibilities and Accountabilities

- Be aware of and work in accordance with Hospital policies and procedures, as amended from time to time, including:
 - Code of Conduct
 - Confidentiality
 - Data Accountability Framework
 - Infection Control
 - Occupational Health and Safety
 - Patient Safety
 - Performance Development Management
 - Respectful Workplace Behaviours
 - Risk Management
