Department	Digital Innovation
Classification	AO5
Agreement	Health and Allied Services, Managers and Administrative Workers Single Enterprise Agreement 2021-2025
Reports to	Leads, Triage & Analysis / Release Management
Accountable to	Manager, Operations & Support

Organisational Overview

The Royal Women's Hospital (**the Women's**), The Royal Melbourne Hospital (**RMH**), and Peter MacCallum Cancer Centre (**Peter Mac**) are leading Victorian public health services located within the Parkville precinct.

The **Women's** is Australia's foremost specialist hospital for women and newborns, delivering primary and tertiary care through a workforce of more than **2,500 staff**, and is internationally recognised for excellence in care, teaching, and research.

The **RMH** is one of Victoria's largest tertiary health services, providing world-class medical, surgical, and mental health programs. Supported by over **12,000 staff**, RMH is a designated trauma centre and leader in neurosciences, nephrology, oncology, cardiology, and virtual health.

The **Peter Mac** is a global leader in cancer research, education, and treatment, with more than **3,900 staff**, including over **700 researchers**, driving innovation in cancer prevention, diagnosis, and care.

Together, these organisations deliver integrated, research-driven, and patient-centred healthcare to local, state, and international communities.

Department Overview – Digital Innovation Service

The Digital Innovation Service (DI), hosted by the Women's, provides a unified ICT capability across the Parkville Local Health Service Network. DI supports the Women's, RMH, and Peter Mac by delivering shared digital infrastructure, systems, and innovation services critical to their clinical and operational performance.

Between July 2024 and June 2025, DI managed over 139,000 support tickets, supporting than 19,000 staff across the health services, highlighting its essential role in enabling safe, reliable, and connected care across the precinct.

In addition, DI provides services under Service Level Agreements to the Parkville Youth Mental Health and Wellbeing Service (PYMHWS) and limited legacy support to Northern Health and Western Health.

Position Purpose

The Support Officer provides operational assistance for clinical, corporate, and research applications and digital platforms across the Parkville precinct. The role assists the Support Specialists and the Leads by performing day-to-day operational tasks, monitoring systems, and assisting with incident, request, and release activities.

The Support Officer plays a key role in ensuring smooth, accurate, and timely delivery of operational support. The role contributes to maintaining service stability, assisting in routine processes, and escalating issues as required. Working closely with Leads and Support Specialists, the Support Officer ensures efficient service delivery and helps maintain a positive, responsive user experience.

Key Responsibilities

Information & Research Platforms

- Assist Support Specialists and Leads with the execution of incident resolution, service requests, and operational activities.
- Monitor service queues, alerts, and operational dashboards, escalating anomalies or issues to the Lead or Support Specialist.
- Maintain accurate records of incidents, requests, tasks, and releases in service management systems.
- Support the preparation and maintenance of operational documentation, including checklists, SOPs, runbooks, and knowledge articles.
- Assist in routine monitoring of system performance and operational processes, flagging trends, issues, or risks to the Lead.
- Support reporting activities by providing task-level updates and assisting with data collection for operational metrics.
- Follow operational processes and organisational policies to ensure compliance with data governance and precinct standards.

Strategic Leadership

- Contribute to the implementation of standardised workflows, processes, and procedures across operational teams.
- Identify operational inefficiencies or repetitive tasks and suggest improvements to Leads.
- Assist with operational readiness activities for system changes or releases, including testing, preparation, and communication support.
- Participate in team discussions to provide insights or observations from day-to-day operational activities.

Operational Performance

- Support execution of tasks related to incident handling, service requests, and releases in line with operational policies and procedures.
- Assist with basic triage, categorisation, and documentation of incidents and changes.
- Support problem management activities by capturing information, documenting issues, and assisting in investigations under guidance.
- Participate in operational resilience tasks, including monitoring alerts, performing routine checks, and escalating issues to Leads.
- Adhere to organisational cybersecurity and operational controls in all activities.
- Assist with vendor or partner coordination by providing accurate information for task handovers or escalations.

People and Culture

- Work collaboratively with Leads, Support Specialists, and other operational team members to deliver consistent service.
- Participate in knowledge sharing and team learning activities.
- Model professional, customer-focused behaviours and contribute to a positive team culture.
- Engage in change initiatives, adopting new tools, processes, or procedures as directed.
- Maintain open communication with Leads regarding workload, task completion, and support requirements.
- Uphold organisational values and support a safe, inclusive, and respectful workplace.
- Encourage behaviours aligned with organisational values and operational excellence.
- Provide digital services support for all hospital sites supported by the Digital Innovation.
- Participate in daily duty roster support across all supported health service sites as required and scheduled.
- Be available for after-hours on-call support duties across all supported hospital sites as required and rostered.

- Participate in off-site support roster as scheduled.
- Contribute to coordinated teamwork and information sharing.
- Request planned leave promptly and maintain excess leave balances in line with hospital guidelines.
- Submit timesheets and leave requests in accordance with maximum leave balances and attendance requirements.
- Engage in performance management, professional training, and development opportunities as required.
- Complete all mandatory hospital training requirements within specified timeframes.
- Consistently demonstrate hospital values in all interactions and activities.

Stakeholder and Relationship Management

- Maintain professional interactions with clinicians, researchers, corporate staff, and internal operational teams.
- Communicate task status or required information promptly to Leads or Support Specialists.
- Assist with coordinating minor operational requests and ensuring smooth handover of issues or tasks.
- Support Leads in preparing operational updates, reports, or documentation as needed.

Financial and Risk Management

- Use operational tools and resources responsibly in line with organisational policies.
- Identify potential operational risks and escalate promptly to Leads.
- Support compliance with cybersecurity, privacy, and data protection requirements through adherence to procedures.
- Contribute to operational reporting or service improvement initiatives by providing observations and task-level data.
