

Position Description

Position title:	Ultrasound Fellow
Department:	Obstetrics and Gynaecology Ultrasound Fellow Pauline Gandel Women's Imaging Centre
Classification:	As per award
Agreement:	Victorian Public Health Sector (AMA Victoria) – Doctors in Training (Single Enterprise Agreement) 2022-2026
Reporting to:	Clinical Director - Ultrasound

About us

Located in Melbourne on the traditional lands of the Wurundjeri people of the Kulin Nation, the Royal Women's Hospital is Australia's first and leading specialist hospital for women and newborns. We offer expertise in maternity services, neonatal care, gynaecology, assisted reproduction, women's health and cancer services. We advocate for women's health in areas that have long been overlooked or stigmatised, including abortion, endometriosis, family violence, female genital mutilation, menopause, women's mental health, sexual assault and substance use in pregnancy.

Our vision, values and declaration

The Women's vision, values and declaration reflect our promise to our patients and consumers, and articulate our culture and commitment to our community and each other.

Our vision is '**Creating healthier futures for women and babies**'. Our values are:

Courage

Passion

Discovery

Respect

The Women's declaration reflects the principles and philosophies fundamental to our hospital, our people and our culture.

- **We are committed to the social model of health**
- **We care for women from all walks of life**
- **We recognise that sex and gender affect health and healthcare**
- **We are a voice for women's health**
- **We seek to achieve health equity**

Our commitment to inclusion

The Women's is committed to creating and maintaining a diverse and inclusive environment which enhances staff and consumer wellbeing, and nurtures a sense of belonging. We strongly encourage anyone identifying as Aboriginal and/or Torres Strait Islander to join us. We offer a range of programs and services to support First Nations employees. We invite people with

The Women's, where you belong.

disability to work with us, and we welcome anyone who identifies as linguistically, culturally and/or gender diverse, people from the LGBTQIA+ community and people of any age.

About the department/unit

The Pauline Gandel Women's Imaging Centre contains and the Department of Obstetrics and Gynaecological Ultrasound and the Department of Radiology, who share an administrative/IT support service. The work of the Centre oversees the provision of high-level complex, primary through quaternary care to both inpatients and outpatients (women, fetuses and newborns). There are strong relationships between the Centre and imaging services across the precinct, and with other centres for women's and neonates' health.

Ultrasounds performed at the Women's include scans at all stages of pregnancy on high risk and vulnerable women. We have a dedicated service provision for fetal anomalies, fetal echocardiograms, multiple pregnancy and early pregnancy complications. We provide gynaecological ultrasound for a broad range of clinical indications, and dedicated assessment of deep infiltrating endometriosis. In addition, we work closely with the teams looking after these women. Our fellows have access to training in fetal medicine clinics, genetics, and a diverse range of multidisciplinary meetings and educational seminars.

Procedures performed on our obstetric patients include chorionic villous sampling, amniocentesis, fetal shunts and IUT; gynaecological procedures include tubal assessment, saline infusion, transabdominal ovum pickup and methotrexate injection of ectopic pregnancies.

In addition to providing an in hours service, consultants and fellows participate in an on-call roster providing an emergency ultrasound service after hours, enabling 24-hour access to ultrasound if required.

The Department has a strong reputation for high quality research. In addition, the team are supported by the hospital's Quality and Safety team to promote high quality care through incident reviews and improvement initiatives.

Position purpose

Fellows in Ultrasound are responsible for the provision of excellent, subspecialty, clinical care to women (outpatients or inpatients) and fetuses. The role is part of a team providing individualised, family-centred approaches to diagnostic and therapeutic interventions using ultrasound imaging. This is an advanced training position and will at times oversee more junior clinicians and assist consultants/supervisors with clinical triage of electronic referrals.

The area of practice will be limited to the relevant subspecialty area except as agreed or as necessary in exceptional circumstances.

Key responsibilities

The Ultrasound Fellow will provide care:

- In consultation with supervising consultants as appropriate.
- In accordance with rosters.
- Taking into account best available evidence regarding quality and safety including RWH Clinical Practice Guidelines.

Find the exceptional in your everyday.

The Women's, where you belong.

- With effective communication with other members of the multidisciplinary team providing care.
- With accountability for care delivered by more junior medical staff under supervision or delegation.
- Comprehensively including timely record-keeping, discharge preparation and communication with referring practitioners and those providing ongoing care.

Trainee medical staff are expected to:

- Attend provided teaching and training sessions as rostered and appropriate to their role.
- Comply with the RANZCOG training requirements of accredited training positions.
- Participate in multidisciplinary team meetings and activities.
- Participate in presentations and conduct of teaching and audit sessions suitable to their level of training and experience.
- Provide supervision/teaching of more junior registrars and HMOs.
- Provide supervision/teaching of medical students.
- Participate in audit and practice improvement activities.
- Undertake duties as directed consistent with their skills and experience, including invasive procedures if a RANZCOG accredited subspecialty trainee.
- Develop collaboration, supervision and leadership skills appropriate to their career path and training level.
- Participate in relevant committees, management and service development activities commensurate with their skills and experience.
- Complete any other duties as required that meet relevant standards and recognised practice.

Key Performance Indicators (KPI's)

KPI's are how you will be measured as meeting the responsibilities of the position. These will be set with you as part of your Performance Development Plan within the first six months of your appointment to the position.

Key selection criteria

Experience/qualifications/attributes

Essential:

- MB BS or equivalent qualification.
- Medical Practitioner Registered with the Australian Health Practitioner Regulation Agency (AHPRA).
- MRANZCOG, FRANZCOG or equivalent.
- Minimum of four years accredited training experience in Obstetrics and Gynaecology.
- Candidates who are accredited RANZCOG COGU subspecialty trainees are preferred.
- Comply with RWH policies and administrative requirements including policies regarding timesheets and leave arrangements.
- Ensure Medical Workforce Unit has current contact details to allow prompt contact for routine and for urgent matters.
- Establish RWH email and clear this at least once per shift.
- A high level of communication and interpersonal skills, with the ability to work effectively and collaboratively within a multidisciplinary team.

Find the exceptional in your everyday.

The Women's, where you belong.

- The ability to educate with evidenced based information to assist informed decision making and a commitment to clinical excellence and customer service.
- A professional, positive, open and approachable demeanour.
- Embodiment of the Women's values.

Organisational relationships

- Women, their families and friends using the services of The Royal Women's Hospital
- PGWIC staff: including allied health, sonologists, radiologists, nurses, administration staff
- ICT
- Other departmental colleagues, including those in Maternity Services, Neonatal Services and Women's Health.
- Medical Workforce
- Chief Medical Officer
- Research Centre

Inherent requirements

Inherent requirements are the essential tasks and activities that must be carried out in order to perform this role, including with adjustments. The Women's is committed to providing workplace adjustments that support all people to work with us. We welcome you to discuss any adjustments with the manager of this role during the recruitment process or at any time during your employment, as we acknowledge and understand circumstances can change. You can also request a copy of our workplace adjustments procedure for more information.

Physical demands	Frequency
Shift work – rotation of shifts – day, afternoon and night	Frequent
Sitting – remaining in a seated position to complete tasks	Frequent
Standing – remaining standing without moving about to perform tasks	Occasional
Walking – floor type even, vinyl, carpet,	Frequent
Lean forward/forward flexion from waist to complete tasks	Occasional
Trunk twisting – turning from the waist to complete tasks	Occasional
Kneeling – remaining in a kneeling position to complete tasks	Occasional
Squatting/crouching – adopting these postures to complete tasks	Occasional
Leg/foot movement to operate equipment	Occasional
Climbing stairs/ladders – ascending and descending stairs, ladders, steps	Rare
