

Position Description

Position title:	Maternal Fetal Medicine Fellow
Department:	Maternal Fetal Medicine
Classification:	As per award
Agreement:	Victorian Public Health Sector (AMA Victoria) – Doctors in Training Enterprise Agreement 2022-2026
Reporting to:	Director – Maternal Fetal Medicine

About us

Located in Melbourne on the traditional lands of the Wurundjeri people of the Kulin Nation, the Royal Women's Hospital is Australia's first and leading specialist hospital for women and newborns. We offer expertise in maternity services, neonatal care, gynaecology, assisted reproduction, women's health and cancer services. We advocate for women's health in areas that have long been overlooked or stigmatised, including abortion, endometriosis, family violence, female genital mutilation, menopause, women's mental health, sexual assault and substance use in pregnancy.

Our vision, values and declaration

The Women's vision, values and declaration reflect our promise to our patients and consumers, and articulate our culture and commitment to our community and each other.

Our vision is '**Creating healthier futures for women and babies**'. Our values are:

Courage

Passion

Discovery

Respect

The Women's declaration reflects the principles and philosophies fundamental to our hospital, our people and our culture.

- **We are committed to the social model of health**
- **We care for women from all walks of life**
- **We recognise that sex and gender affect health and healthcare**
- **We are a voice for women's health**
- **We seek to achieve health equity**

Our commitment to inclusion

The Women's is committed to creating and maintaining a diverse and inclusive environment which enhances staff and consumer wellbeing, and nurtures a sense of belonging. We strongly encourage anyone identifying as Aboriginal and/or Torres Strait Islander to join us. We offer a range of programs and services to support First Nations employees. We invite people with disability to work with us, and we welcome anyone who identifies as linguistically, culturally and/or gender diverse, people from the LGBTQIA+ community and people of any age.

About the department/unit

Clinical services and research activities in Maternal Fetal Medicine are undertaken in the Department of Maternal-Fetal Medicine, the Ultrasound Department and in the associated multidisciplinary specialist clinics and inpatient services. The Department provides the full range of care to women with complex medical disorders and/or complications associated with their pregnancy.

Position purpose

Subspecialty Fellows are responsible for the provision of excellent clinical care to women who are outpatients or inpatients of the Royal Women's Hospital, and their babies and families.

The area of practice will be limited to the relevant subspecialty area except as agreed or as necessary in exceptional circumstances.

Key responsibilities

Fellows in Maternal Fetal Medicine:

- Undertake a range of training opportunities in clinical and research aspects of Maternal-Fetal Medicine under the supervision of the Director of the Department of Maternal-Fetal Medicine and other consultant senior medical staff of the Department of Maternal-Fetal Medicine and associated services;
- In particular, provide clinical care for women with complicated pregnancies, including undertaking ultrasound imaging; ambulatory clinics including the Maternal Medicine Clinic, the Fetal Medicine Clinic, the Multiple Pregnancy Clinic, the Diabetes Clinic, the Recurrent Miscarriage Clinic and the Genetics Clinic; participating in in-patient care at both The Women's and other Parkville Precinct sites, operating theatre and intrapartum care of the hospital's MFM and maternity patients.
- Attend, participate in, and undertake clinical teaching and audit sessions associated with the hospital's maternity care activities;
- Undertake lecture, tutorial and bedside teaching of undergraduate and postgraduate clinical trainees;
- Contribute to, support and/or undertake various clinical research studies in the field of Maternal Fetal Medicine;
- Undertake other duties as directed from time to time consistent with a Fellow's level of skill and experience;
- Must be aware of and work in accordance with hospital policies and procedures, including Human Resource, Clinical Practice Guidelines, Occupational Health and Safety, Equal Employment Opportunity, and Privacy and Confidentiality, and also ensure Registrars and HMOs are also working within these guidelines.

Training Program

The Royal Women's Hospital is accredited by RANZCOG to provide designated postgraduate subspecialty training in Maternal Fetal Medicine, in accordance with the requirements for the Certificate in Maternal Fetal Medicine (CMFM). Priority will be given to applicants who have been accepted to the RANZCOG CMFM subspecialty training program.

These positions are suitable for trainees who have completed all requirements of the Core Training Program of RANZCOG (or equivalent).

Training information is available at www.ranzcog.edu.au

Key Performance Indicators (KPI's)

KPI's are how you will be measured as meeting the responsibilities of the position. These will be set with you as part of your Performance Development Plan within the first six months of your appointment to the position.

Key selection criteria

Experience/Qualifications/Attributes

- MBBS or equivalent qualification
- Registered Medical Practitioner with the Australian Health Practitioner Regulation Agency (AHPRA).
- Completion of all core training requirements in the RANZCOG training program (or equivalent) is essential
- At least 5 years postgraduate Obstetrics and Gynaecology experience.
- FRANZCOG (or equivalent) preferable.
- At least basic obstetric ultrasound experience preferable, with formal obstetric ultrasound qualifications an advantage.
- Well-developed interpersonal skills are essential
- Ability to work in a team
- Flexibility to work shift-work & rotating roster including after-hours & weekends.
- Professional demeanour at all times
- Ability to balance competing or conflicting priorities as well as time-management skills.
- Embodies the Women's values of courage, passion, discovery and respect

Organisational relationships

Fellows report to the Director of the Department of Maternal-Fetal Medicine in relation to all clinical, research, educational, administration and other duties carried out in their capacities as Fellows and to the Maternal-Fetal Medicine Training Program Director in relation to RANZCOG CMFM training matters.

With respect to specific clinical service and research activities/duties, Fellows are also responsible to the heads of the respective clinical service and research areas.

Inherent requirements

Inherent requirements are the essential tasks and activities that must be carried out in order to perform this role, including with adjustments. The Women's is committed to providing workplace adjustments that support all people to work with us. We welcome you to discuss any adjustments with the manager of this role during the recruitment process or at any time during your employment, as we acknowledge and understand circumstances can change. You can also request a copy of our workplace adjustments procedure for more information.
