| | |
|------------------------|--|
| Position title: | Senior Clinical/Health Psychologist, Early Intervention Pelvic Pain Clinic (Connect Program) |
| Department: | Centre for Women's Mental Health |
| Classification: | Psychologist Grade 3 (PL1 - PL4) |
| Agreement: | Medical Scientists, Pharmacists and Psychologists Enterprise Agreement 2021 - 2025 |
| Reporting to: | Psychology Manager, Women's Mental Health Service |

About us

Located in Melbourne on the traditional lands of the Wurundjeri people of the Kulin Nation, the Royal Women's Hospital is Australia's first and leading specialist hospital for women and newborns. We offer expertise in maternity services, neonatal care, gynaecology, assisted reproduction, women's health and cancer services. We advocate for women's health in areas that have long been overlooked or stigmatised, including abortion, endometriosis, family violence, female genital mutilation, menopause, women's mental health, sexual assault and substance use in pregnancy.

Our vision, values and declaration

The Women's vision, values and declaration reflect our promise to our patients and consumers, and articulate our culture and commitment to our community and each other.

Our vision is '**Creating healthier futures for women and babies**'. Our values are:

Courage

Passion

Discovery

Respect

The Women's declaration reflects the principles and philosophies fundamental to our hospital, our people and our culture.

- **We are committed to the social model of health**
- **We care for women from all walks of life**
- **We recognise that sex and gender affect health and healthcare**
- **We are a voice for women's health**
- **We seek to achieve health equity**

Our commitment to inclusion

The Women's is committed to creating and maintaining a diverse and inclusive environment which enhances staff and consumer wellbeing, and nurtures a sense of belonging. We strongly encourage anyone identifying as Aboriginal and/or Torres Strait Islander to join us. We offer a range of programs and services to support First Nations employees. We invite people with

The Women's, where you belong.

disability to work with us, and we welcome anyone who identifies as linguistically, culturally and/or gender diverse, people from the LGBTQIA+ community and people of any age.

About the department/unit

The Women's Mental Health Service (WMHS) provides mental health services to the Women's Hospital in Parkville. Our major areas of activity are in these domains: clinical work, research, and education & training. Clinical services cover each of the hospital's clinical streams, i.e. maternity services, gynaecology and women's cancer and neonatal services. The WMHS is part of the Social Model of Health Division, which has responsibility for ensuring the hospital's clinical and social support services are coordinated, aligned and leveraged to provide wrap around care for the women who need it most. In particular, the division has a focus on ensuring a woman's social, economic, cultural, environmental, geographic, and other factors are taken into account in her care plan with the overall aim of reducing health inequalities and addressing systemic inadequacies that affect health access and outcomes.

Position purpose

The Senior Clinical/Health Psychologist is a member of the Women's Mental Health Service, and will work primarily with the Early Intervention Pelvic Pain Clinic (Connect Program) within the Department of Gynaecology. The Connect Program uses a holistic approach to help participants understand and manage pelvic pain. Together with a multidisciplinary team, the Senior Clinical/Health psychologist is responsible for the provision of evidence-based psychological services to women treated within the Early Intervention Pelvic Pain Clinic.

The Senior Clinical/Health Psychologist will provide psychological assessment of individual patients to assist with diagnosis, short-term treatment, support, and linkages with appropriate community-based resources. They will also be involved in the provision of consultation to medical, nursing and allied health staff in relation to more complex mental health disorders, clinical presentations, and management of the patient's associated behaviours.

The Senior Clinical/Health Psychologist will also be involved in the development and evaluation of specific team programs, initiatives, or research programs where appropriate, and participate in quality improvement and educational activities.

After consultation with the Psychology Clinical Lead, redeployment to cover other service areas may be required.

Key responsibilities

Clinical practice

- ⌚ Provide timely psychological assessment and evidence-based treatment to patients presenting to the Early Intervention Pelvic Pain Clinic (Connect Program).
- ⌚ Work with, and where appropriate, provide supervision and support for other members of the multidisciplinary team, including pain specialists, nurses, and allied health clinicians.
- ⌚ Participate in multidisciplinary team meetings, care planning, and case review.
- ⌚ Co-ordinate and develop group programs as appropriate.

Find the exceptional in your everyday.

The Women's, where you belong.

- ⌚ Demonstrate independent clinical reasoning and clinical competencies, including expertise in use of relevant assessment tools, treatment methods, outcome measures, and case management skills.
- ⌚ Demonstrate developed organisational skills and efficient time management to appropriately evaluate, prioritise, and complete workload.
- ⌚ Maintain accurate records and provide accurate reports and statistics as required
- ⌚ Work in partnership with consumers, patients, and where applicable carers and families.
- ⌚ Work collaboratively with colleagues across all clinical services at The Women's.
- ⌚ Any other duties as required that meet relevant standards and recognised practice.

Communication and teamwork

- ⌚ Provide information and education about the service and professional role both within the service, at The Women's, and to external service providers.
- ⌚ Attend and participate in relevant team and/or service meetings.
- ⌚ Demonstrate effective negotiation skills and conflict resolution when dealing with difficult situations.
- ⌚ Contribute to a culture that promotes effective teamwork, encourages cohesion, and ensures staff feel valued and contributions are acknowledged.
- ⌚ Demonstrate open and effective communication (verbal, non-verbal, written, and electronic) with consumers, other staff, and service providers.
- ⌚ Be respectful of the needs of patients, visitors and other staff and maintain a professional approach to all interactions.
- ⌚ Demonstrate knowledge of resources relevant to the work area and act as a resource person for other team members both within WMHS and the Early Intervention Pelvic Pain Clinic (Connect Program).

Quality, safety and improvement

- ⌚ Participate in the development and implementation of clinical guidelines and processes based on evidence of best practice in clinical psychology/psychiatry, particularly within the area of chronic pain.
- ⌚ Participate in research, evaluation, quality improvement, and ongoing service review – including accreditations processes.
- ⌚ Be aware of and work in accordance with Hospital policies and procedures, including Occupational Health and Safety, Infection Control, Equal Employment Opportunity and Confidentiality.

Learning and development

- ⌚ Participate in individual and group supervision in accordance with AHPRA, PBA and The Women's requirements.
- ⌚ Attend relevant professional development sessions.
- ⌚ Maintain and update clinical or health psychology professional expertise
- ⌚ Attend sector Psychology meetings.
- ⌚ Demonstrate initiative and responsibility for individual professional development.
- ⌚ Maintain board approved supervisor status with the PBA.
- ⌚ Provide supervision to psychology staff and students as required.
- ⌚ Participate in performance review process.
- ⌚ Actively seek feedback on professional performance and respond professionally to such feedback.
